

Self Help Co-operatives Workshop Practical Co-operative Solutions for Social Services

**Tuesday 26th June 2012
at Neath Port Talbot CVS**

**10.30am-3.30pm
John Restakis**

Executive Director, British Columbia Co-operative Association, Canada

John is a Canadian expert who has promoted and commented on citizen-centered developments in Canada over the last 20 years. He will be talking about Canadian and Italian experiences and exploring how we might promote citizen directed social support services in Wales.

The event is intended to inform and support the transformation of Social Services, and opportunities for change. More than 95% of all care needs that older people have is provided by unpaid carers who help to keep people in their own homes. The remainder of care is provided by either private (or indeed voluntary) sector agencies and local authorities.

We will examine possibilities for member owned and controlled co-operative businesses to provide quality alternative practical home care services.
